"Developing lifelong learning skills in a supportive environment, enabling all to reach their future potential"

Marian State School utilises the department designed and approved device management solution, "BYOxLink".

This means, if you have the Intune Company Portal App on your child's iPad and your child has signed in with their school email and password (**instructions will be supplied**), the school can allocate all required apps to your child's iPad, including the paid apps. Information about the Intune App will be supplied to all new BYO iPad users. However, please see below for all apps utilised across our iPad classes.

All Year Level Apps
