STUDENT RESOURCE SCHEME – 2025

The Student Resource Scheme has been endorsed by the P&C Association.

The Student Resource Scheme was introduced for the following reasons:

- To minimise resource expenses to parents when providing children with their school requirements for instruction.
- To provide students with current editions of required resources.
- To maximise teaching and learning opportunities so that all children have access to the same resources for instruction.
- Ready access for students to consumables and resource materials as needed.
- Cost savings and convenience in purchasing student consumables and resource materials.

The scheme is managed by the school and the school will use the money collected by the Student Resource Scheme to purchase class sets of ‘up to date’ quality resources for student use. It is understood that some families may not wish to join the Student Resource Scheme and will therefore provide all of the materials required by their child. These families are asked to check that their children have current editions of the materials/resources as detailed below.

It is essential that the school administration receive this advice early so that the 2025 school budget can be finalised and resources purchased for immediate use by students.
